The main concept of physical Sunscreen is
(Physical x refreshing x skin friend)

We combine minerals, various herbal essences and soothing ingredients for refreshing, skin friendly and non sticky ingredients.

The delicate and fine texture is perfect for spreading.

Physical sunscreen is perfect for outside and daily activities.

Main Ingredients and Features

Zinc Oxide

Zinc Oxide has excellent physical protection in UVA and UVB range. It is one of most safe sun protection ingredient for both sensitive and acne skin types.

Titanium Dioxide

Titanium Dioxide has excellent protection to UVB. (Excellent SPF) with high covering ability, skin polishing and non-sticky features. It is gentle to sensitive skin and widely used in sunscreen and pre-makeup lotions.

Centella Asiatica Extract

It is an herbal ingredient that can maintain skin coziness under sun exposure. It is also suitable to be used for skincare products

Chamomile Extract

It has been considered as a herbal doctor. It is a gentle herbal ingredient for sensitive skin type.

Golden Seaweed Extract

It is sourced from ocean. Perfect for maintain skin moist and refreshing.

Vitamin E Acetate

It is derived from Vitamin E. Allow skin to be tender and glow with healthy color

Bisabolol

Bisabolol is sourced from natural herb. It can release skin tension with 97% purity.

Oat-derived Polyphenols

Same as natural oat, it can nourish dry skin. Provide sunscreen ability and maintain skin health at same time.

Texture and feedback

The texture is clear and delicate with great extension. It is not be pale or heavy after use. The skin will still be refresh and comfortable.

Recommending combination:

Can combine with Youthful Serum, Water Droplet Serum, CC Serum, Liquid Foundation. It can be used for sunscreen or pre-makeup sunscreen. Provide a exclusive daily skincare and protection.
